HOW IT IS BUILT

Sourced from the BC Corporate Registry and City of Vancouver open data, normalized into verticals and identity-checked against OrgBook BC. Change signals come from cross-matching new licences against existing corporations. Confidence is graded per contact: **HIGH** verified to an official page, **MED** a strong match, **LOW** held back for review.

CASL-SAFE BY CONSTRUCTION

Every email and phone in the reachable table is taken only from a conspicuously published business page; the data file carries the exact source URL behind each one (s.10(9)(b) implied-consent evidence). We never fabricate, buy, or guess contact data.
